

C/O Palmetto Railways
4400 Leeds Avenue, Suite 450
North Charleston, SC 29405

Thank you for your continued interest in the Camp Hall Rail project. Since our Community Kickoff Open House in April 2016, we have been working to engage federal agencies to initiate the National Environmental Policy Act (NEPA) process. As part of the NEPA process, Palmetto Railways will work with the lead federal agency or agencies to engage the community to help complete a rigorous environmental analysis and perform a preliminary engineering effort that will reflect the concerns of the community and the effects this project may have on the social, economic, and natural resources in the area.

Project Activities

Fieldwork is ongoing in the initial project study area as the project team gathers information and data necessary for the planning, development of location alternatives, design, property acquisition, and construction of the proposed Camp Hall Rail project.

Next Steps

We anticipate holding the second public information meeting in early 2017 and will contact you again when we have details about the meeting date and location.
