North Charleston, SC 29405

## Field Data Notice

Palmetto Railways, a division of the South Carolina Department of Commerce, is planning for the development of an industrial rail line to serve the Camp Hall Commerce Park in Berkeley County, South Carolina. The new rail line will connect Camp Hall Commerce Park to existing railroad right-of-way, near the Santee Cooper Cross Generating Station.

Palmetto Railways will be identifying a preferred rail route in an application to the US Army Corps of Engineers that will define the need for the project, taking into consideration the environmental impacts of the proposed project and alternatives.

Pursuant to Section 28-2-70(C) of the South Carolina Code of Laws, notice is hereby given that entry by personnel of Palmetto Railways and their agents will be made in the Camp Hall Rail project initial study area on public and private properties for such purposes as topographic surveys and environmental-related studies and for the gathering of any other data necessary for the planning, development of location alternatives, design, property acquisition, and construction of the proposed Camp Hall Rail project.

## Activities

The project team is currently gathering information in your area to better understand existing conditions of the environment. Field personnel will be in the project area beginning approximately two weeks from the date of this notice through the summer and will strive to minimize inconveniences to you.

## Additional Information

Additional information about this project is available online at [www.palmettorailways.com](http://www.palmettorailways.com). If you have any questions about the fieldwork being performed, please contact us:
